In maths we did a topic on Happy Birthday Humpty where we learnt about the days of the week, months of the year, time and fractions. We had a party for Humpty to celebrate at the end of the unit.

To celebrate the Olympics we had our own Olympics at school. We were in different teams and had fun joining in some Olympic events including relays, shot put, javelin, hurdles.

In maths we did a long jump activity using teddy bears. We had to measure how far our teddy could jump using counters.
