All the students have been having music lessons with Mrs Geddie this term. They have been combining music with computing by using the “Groovy Music” programs.

It’s been a lot of fun!!

The Junior Primary classes have been using Groovy Shapes to create music and to learn more about instruments in the explore section.

Groovy Jungle has been used by the Middle Primary classes to compose layered pieces.

The Upper Primary class created pieces using Groovy City. As you can see, it has more features than the other Groovy Programs.
